FEDERAL UNIVERSITY OF PETROLEUM RESOURCES, EFFURUN

EMT 225 — Past Questions & Materials
by Renance

Course: EMT 225
Institution: Federal University of Petroleum Resources, Effurun
Papers in this pack: 2
Levels: 200

This study pack was compiled and restructured by Renance for EMT 225 students at Federal University of Petroleum Resources, Effurun. It brings together 2 past paper(s)/material(s) into one clean, readable document so you can revise without chasing scattered PDFs. Practise these same questions interactively on Renance with instant answers, AI explanations, and full CBT mock exams — over 235,000+ questions across JAMB, Post-UTME, WAEC, NECO and university courses.

Paper 1 of 2 — EMT 225, 2024 past question

Level 200 • Second Semester • PastQuestion

This source paper is a scanned document; its pages are reproduced below.

FEDERAL UNIVERSITY OF PETROLEUM RESOURCES, EFFURUN

COLLEGE OF SCIENCE

DEPARTMENT OF ENVIRONMENTAL MANAGEMENT AND TOXICOLOGY
2023/2024 ACADEMIC SESSION SECOND SEMESTER
EMT 225: Introduction to Waste Management (2 Units)

Instruction: Answer 4 questions, at least one from each section 2 hours

Section A

1. Explain the environmental impacts of improper waste management on air, water, soil, and biodiversity. Provide examples of how these impacts can affect human health and ecosystems.
2. Discuss the role of Waste-to-Energy technologies in waste management. Compare and contrast incineration, anaerobic digestion, and gasification, highlighting their processes and benefits for energy generation.

Section B

3. You have generated the following waste items at home: torn fabrics, food scraps, broken glass, a used plastic bottle, and broken plastic plates.
 - a. Describe in detail how you would manage each of these waste items from the point of generation to the final disposal stage, including sorting, handling, and disposal methods.
 - b. Solid waste can be categorized into different types. List the major categories of solid waste and provide one example for each category.
4.
 - a) Identify and explain the key factors that must be considered when developing an effective solid waste management strategy.
 - b) Write a short note on the following topics:
I. Waste storage; II. Waste transportation; III. Off-site waste disposal strategies

Section C

5.
 - a. The phrase "Wastewater, Water, Water Everywhere" is often used in discussions about water management. Explain what is meant by the term wastewater.
 - b. Discuss the chemical composition of wastewater, identifying key chemical components and their various sources.
 - c. Examine the physical composition of wastewater, highlighting the primary physical characteristics and their sources.
6.
 - a. Concisely explain five (5) impact of untreated wastewater to man and the environment, putting into account its effect and consequences.
 - b. Comprehensively discuss the microbiological composition of wastewater and their various sources

Paper 2 of 2 — EMT 225

Level 200 • Second Semester • PastQuestion
